Project Meeting Reports — 10 marks

The purpose of the project meeting reports is to provide a brief record of your group's progress throughout the project and the work agreed during project meetings.

Each group is required to submit a short report (maximum 400 words) for four assessed project meetings, starting on Tuesday of Week 5. Groups are encouraged to meet more frequently as needed throughout the project; however, only these four meeting reports will be assessed.

Each meeting report should briefly include:

- Project progress since the previous meeting;
- Work discussed and agreed during the meeting;
- Planned next steps; and
- Group members present or absent.

Each meeting report is worth 2.5 marks, giving a total of 10 marks across the four assessed meetings.

Marking Scheme — Each Meeting Report [2.5 marks]

Meets expectations [2.5 marks]	Partially meets expectations [1.5 marks]	Does not meet expectations [0 marks]
The report clearly records project progress, work discussed and agreed, planned next steps, and attendance.	The report records the meeting and project progress, but one or more required elements are missing, unclear, or insufficiently described.	The report is not submitted, or provides no meaningful record of the meeting or project progress.

Submission Guidelines:

Enter the meeting details in the textbox.
Only **one student from each group** needs to submit this for the whole group.

Please submit this on Loop by **Tuesday, 6th October**.
